Our story

Our mission is to be your partner on your journey towards family, health and harmony of body and mind. Every capsule, every ingredient, every study and every piece of feedback from you, our customers, keeps us moving forward. Aliver Nutraceutics is more than a company - we are a community of people who believe in the potential for positive change.

The story of Aliver Nutraceuticals began in 2008, when we decided to take our future and our wish for a family into our own hands and create products that not only work, but change lives for the better. The founders had a simple goal: to overcome their own hormonal difficulties, become parents with nature's help and share their experience. That personal struggle inspired the idea of combining one founder's medical training, current scientific knowledge and the best that nature has to offer. And so Aliver Nutraceuticals was born.

Behind the brand are MUDr. Alica Anna Szabó and Libor Šlosár. What began as a vision shared by two people soon became a collaboration of doctors, scientists and innovators. Developed in certified EU laboratories, our products draw on the latest scientific findings and respect the body's natural functions.

We work with experts who observe our products' effectiveness in practice, analyse their effects on hormonal balance and help us innovate continually. Our aim is to deliver solutions that truly work.

Who do our products help?

Our products are for people who know their health is worth every investment, who seek solutions rather than excuses and want to enjoy life to the full. Our main priorities are:

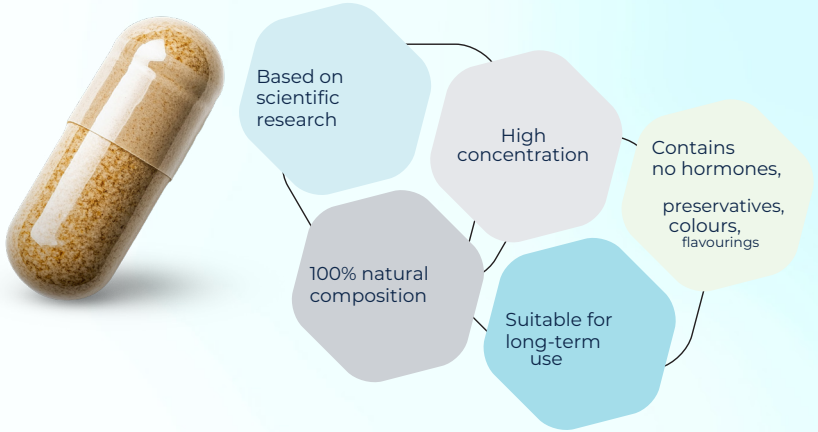

- Couples planning a family and couples facing infertility: We know how difficult the journey to longed-for parenthood can be. Our supplements support hormonal balance, reproductive health and the body's overall readiness for new life.
- Women going through menopause: We know how emotionally and physically demanding this stage of life can be. Our products relieve unpleasant symptoms and help you regain balance and calm.
- Girls and women with menstrual cycle disorders: A balanced cycle is key to women's overall health. We offer targeted help exactly where it is needed most.
- People interested in smart ageing: Our products help treat existing conditions, prevent illness and promote lasting vitality. We offer innovative solutions for active, mindful ageing.

Each of our customers brings their own life story, plans and questions.

And we are here to support them on their journey with a thoughtful approach and solutions.

Why choose Aliver Nutraceuticals?

There are many supplements.
But we are not 'just another brand on the market'.
What sets us apart?

- The power of science and nature
  We do not believe in 'miracle pills' or exaggerated promises. Each product is the result of scientific research and a deep understanding of what nature offers. We combine the best of both worlds: natural ingredients with proven effects and the latest findings in nutraceutical science.

- Purity and quality first
  Our supplements are developed and manufactured in certified laboratories in the European Union using only the finest ingredients. All plants used are organically grown, and all other ingredients come in readily absorbed forms.

- High concentration
  Active ingredients are included at the highest permitted doses for maximum effect. Their high concentration provides targeted support for the body and helps maintain its balance with long-term use.

- 100% natural formula with no hormones, preservatives, colours or flavourings
  Aliver Nutraceutics products contain carefully selected natural ingredients with proven effects. Only what your body truly needs.

- Suitable for long-term use
  Our products are designed to support health gently and safely, even with long-term use. Their natural ingredients and scientifically developed formulas do not burden the body and provide lasting effects.

- Real results
  Our products have helped many people across Europe fulfil their dream of parenthood or improve their quality of life. Our customers' experiences drive our commitment to keep delivering only the best.
